

CH- 10 MEASUREMENT

$$1 \text{ m} = 100 \text{ cm}$$

$$1 \text{ kg} = 1000 \text{ g}$$

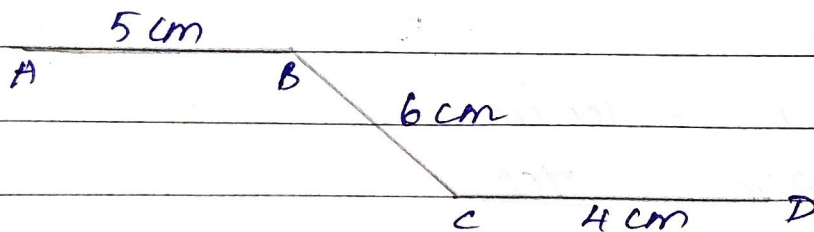

$$1 \text{ l} = 1000 \text{ ml}$$

Ex 10 A

1. The length of your book is less than 1 m.
2. The length of your mother's saree is more than 1 m.
3. An apple weighs less than 1 kg.

Ex 10 B

1. Using scale measure the lengths.

$$\text{Length of AB} = 5 \text{ cm}$$

$$\text{Length of BC} = 6 \text{ cm}$$

$$\text{Length of CD} = 4 \text{ cm}$$

$$\text{Total Length} = 5 + 6 + 4$$

$$= 15 \text{ cm}$$

Ex 10 C

1. Convert into cm:

a) 4 m

$$1 \text{ m} = 100 \text{ cm}$$

$$4 \text{ m} = 4 \times 100 \\ = 400 \text{ cm}.$$

b) 72 m

$$1 \text{ m} = 100 \text{ cm}$$

$$72 \text{ m} = 72 \times 100 \\ = 7200 \text{ cm}$$

2 Convert into m and cm.

a) 125 cm

$$1 \text{ m} = 100 \text{ cm}$$

$$125 \text{ cm} = \frac{125}{100} \\ = 1 \text{ m } 25 \text{ cm}.$$

b) 702 cm

$$1 \text{ m} = 100 \text{ cm}$$

$$702 \text{ cm} = \frac{702}{100}$$

$$= 7 \text{ m } 2 \text{ cm}.$$

3) Convert into cm.

a) 8 m 21 cm

$$1 \text{ m} = 100 \text{ cm}.$$

$$8 \text{ m} = 8 \times 100 \\ = 800 \text{ cm}$$

$$8 \text{ m } 21 \text{ cm} = 800 + 21$$

$$\begin{array}{r} 800 \\ + 21 \\ \hline \end{array}$$

$$\underline{821}$$

$$8 \text{ m } 21 \text{ cm} = 821 \text{ cm}$$

b) $35 \text{ m } 70 \text{ cm}$

$$1 \text{ m} = 100 \text{ cm}$$

$$\begin{aligned} 35 \text{ m} &= 35 \times 100 \\ &= 3500 \text{ cm} \end{aligned}$$

$$85 \text{ m } 70 \text{ cm} = 3500 + 70$$

$$\begin{array}{r} 3500 \\ + 70 \\ \hline \end{array}$$

$$\underline{3570}$$

$$= 3570 \text{ cm}$$

Ex 10 D

1. How much more to be added to make the following equal to 500g.

a) 100 g $\underline{400 \text{ g}}$

b) 300 g $\underline{200 \text{ g}}$

2. How much more to be added to make the following equal to 1kg? (1000g)

a) 300 g $\underline{700 \text{ g}}$

b) 500 g $\underline{500 \text{ g}}$

3) Which is heavier.

a) 500 g or four 100g 500g

b) 1 kg or four 200g 1 kg

4. How many 200g blocks together weigh equal to 1 kg block? 5

EX 10 E

a) 1 l = two 500 ml

b) 1 l = ten 100 ml

c) 1 l = five 200 ml

Ch-II TIME

1 hour = 60 minutes

1 day = 24 hours

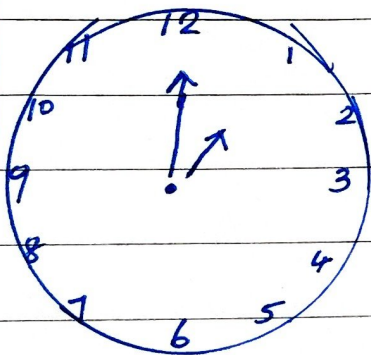

1 week = 7 days

Ex. 11A

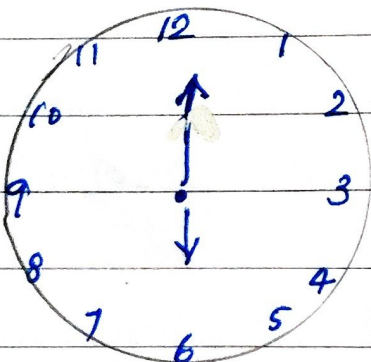

1) Write the numbers at which the hands would point at given time.

	Time	hour hand	minute hand
a)	3 o'clock	3	12
b)	6 o'clock	6	12

2) Draw hands of the clock to show the given time.

1 o'clock

6 o'clock.

Ex 11 B

Fill in the blanks.

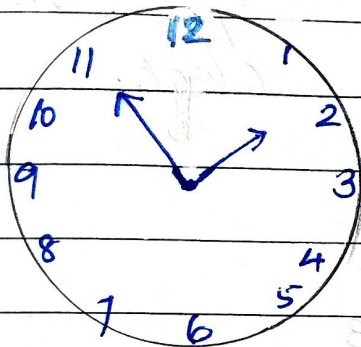

a 5:15 is the same as Quarter past five

b 11:15 is same as Quarter past 11

c 8:15 is same as Quarter past 8

Ex 11. c

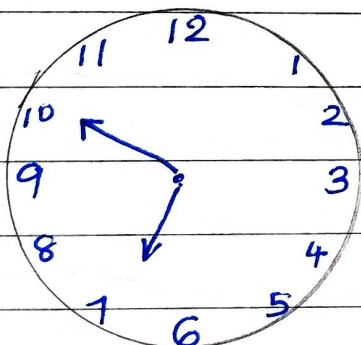

Write down the time on the clock in two ways.

1:55

5 minutes to 2

55 minutes past 1

6:50

50 minutes past 6

10 minutes to 7

II Fill in the blanks:

a. The hour hand will move from 1 to 4 in 3 hours.

b. The hour hand will move from

3 to 8 in 5 hours

c. The minute hand will move 12 to 2 in 10 minutes

d. The hour hand makes 2 Complete rounds in a day.

e. The minute hand makes 12 Complete rounds in half a day.

2. Ujjwal and Urmila leave for the toy shop at half past four. They return after half an hour. Draw the time of their return on the clock.
